
BOOTHBUNNY

LUNE

SLUTCORE: the white boothbunny plays with electro, hard dance and bouncy house, plus his own hyperpop vocal tracks. Don't underestimate his cute side tho!

ELECTRO | HOUSE | SLUT DANCE | HYPERPOP

MOLT

SHOW-TRANSITION

On stage, I switch to the other bunny persona mid-set, as a show act.

Bookable as an add-on performance.

Of course I can also play as only one of the bunnies, depending on the preferred genres.

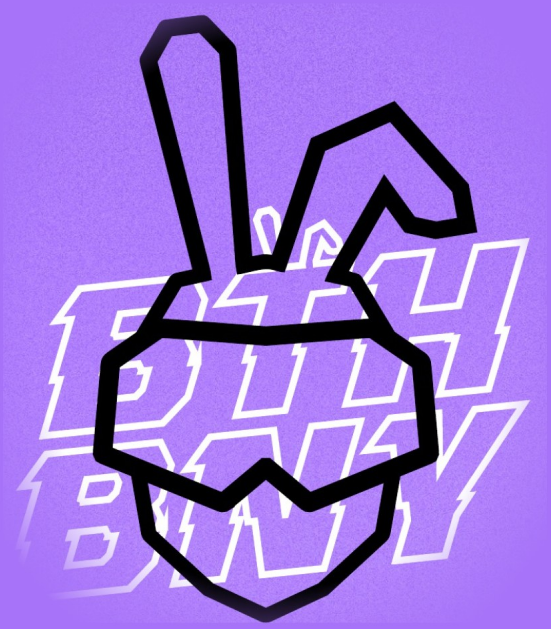

NOIR

HARDCORE: the black boothbunny shows off his hard, energizing trance & techno beats. Dark and heavy bounces with classic Berlin influences! Better be nice to him..

TRANCE | TECHNO | HARDGROOVE | GABBER

The first of his rabbit hutch to bounce behind the decks. Serving only the best buns, from hard dance and trance to techno and hyperpop. Bred in Berlin's queer and fetish subcultures, boothbunny loves spicy beats and cute collars. In 2026 he drops his debut EP CABBIT and launches his own party PURPUR, a home for queer subcultures.

„the bunny in the booth is the familiar faceless femme-boy“
